

OPERATION OF UNDERBENCH FRESH OIL TANK

ADDING NEW OIL TO FRYER

1. Push the Underbench Tank in front of the deep fryer.
2. Hold the hose by the wand over the deep fryer with the outlet pointing down.
3. Flick the switch that is located on the back of the Underbench Tank pump and oil will commence filling the fryer.
4. Fill to your desired amount and then switch the pump off.
5. Insert the wand end back into the holder ensuring it's secured with the clip, do not let it dangle to the ground.
6. After use, plug the recharger into a power supply and then into the socket located on the pump.
